

Global Pharma Tech Summit 2026

World Pharma Tech

Pharma Tech London, UK

MAY 18-19, 2026

Hot Conference Topics

- Molecules Meet Machines AI-Driven Drug Discovery & Development
- One Size Doesn't Fit All Precision Medicine in Action
- Smart Trials Smarter Outcomes Next-Gen Clinical Trials & RWE
- Connected Care Digital Health & Telemedicine Unleashed
- Safety in the Age of AI Pharmacovigilance Reimagined
- Beyond the Pill Advanced Drug Delivery & Smart Formulations
- Factory of the Future Pharma Manufacturing 5.0 & Supply Chain Innovation
- Algorithms to Action Winning Commercial Strategy & Market Access
- Deals that Deliver Business Development Licensing & Strategic Partnerships
- Pharma 2030 AI Digital Health & the Next Wave of Innovation

WHO YOU CAN NETWORK WITH

- Research & Development
- Clinical Development
- Regulatory Affairs
- Medical Affairs
- Pharmacovigilance & Drug Safety
- Manufacturing & Operations
- Quality Assurance & Quality Control
- Supply Chain & Logistics
- Process Development & Scale-Up
- Business Development & Licensing
- Commercial Strategy
- Market Access
- Product Launch
- Digital Health
- Data Strategy & Bioinformatics
- Real-World Evidence
- Artificial Intelligence & Analytics in Pharma
- Corporate Development & M&A
- Strategic Partnerships & Alliances
- Academia & Research Institutes
- Government & Regulatory Bodies
- Public Health & Patient Advocacy
- Pharma Marketing & Brand Management

AS A SPEAKER

YOU ARE WELCOME

TO SUGGEST A TOPIC THAT

- **Should be Discussed**
- **Shouldn't be Missed**

THE PRESENTATION SHOULD REFLECT

- The state of industry
- Innovative and transformational ideas
- Milestones of Inspiration and creativity
- Challenges faced on a daily basis in your job
- New trends, practices, and technologies

Innovation, R&D & Clinical Development

09:30 – 10:00 | Keynote 1

The Future of Pharma: AI, Innovation & Patient-Centric Care

- Overview of pharma transformation and industry trends
- Integration of R&D, Clinical, Regulatory, and Medical Affairs
- Emerging technologies shaping the pharmaceutical landscape

10:00 – 10:30 | Keynote 2

AI & Drug Discovery: From Concept to Clinic

- Accelerating molecule identification using AI
- Lab + algorithm workflows for efficient research
- Early adopter case studies demonstrating impact

10:30 – 11:00 | Coffee Break & Networking

11:00 – 11:40 | Session 1: AI & Drug Discovery: From Concept to Clinic

- Personalized treatments through genomics & biomarkers
- Integration of precision care into hospital systems
- Ethical, regulatory, and patient-centric challenges

11:40 – 12:20 | Session 2: Global Pharma Market Outlook & Strategic Partnerships

- Market trends and competitive intelligence
- Licensing, M&A, and pharma-tech alliances
- Opportunities for collaboration and cross-border growth

12:20 13:00 | Session 3: Unlocking Value in Rare Diseases: Strategy, Access & Global Expansion

- Pricing & market access strategies in ultra-rare and orphan indications
- Evidence generation and payer engagement in small patient populations
- Global launch sequencing: US, EU & emerging market considerations
- Sustainable commercial models and partnership strategies for growth

13:00 – 14:00 | Group Photos & Lunch Break

14:00 – 14:30 | Keynote Talk

14:30 – 15:10 | Session 4: Manufacturing, Operations, Supply Chain, Logistics in Pharma

Advanced Drug Delivery & Smart Formulations

- Nanotechnology and targeted delivery methods
- Patient-centric innovations for better adherence
- Emerging biologics and formulation strategies

15:10 – 15:40 | Keynote Talk

15:40–16:00 | Special Session

Supply Chain, Logistics & Data Analytics in Pharma

- Predictive analytics for supply chain optimization
- Smart packaging and risk management strategies
- Blockchain for transparency and traceability

16:50 17:30 | Session 5: Clinical Development & Real-World Evidence

- Market trends and competitive intelligence
- Licensing, M&A, and pharma-tech alliances
- Opportunities for collaboration and cross-border growth

16:50 – 17:30 | Keynote 6

AI, Digital Health & Pharma Innovation

- AI integration across the pharma value chain
- Digital health and telemedicine innovations
- Future strategic foresight and emerging technologies

9:30 – 10:00 | Keynote Talk**Commercial Strategy & Market Access in Pharma 2025+**

- Launch strategies, pricing models, and reimbursement
- Brand management and marketing strategies
- Market access challenges and solutions

10:00 – 10:30 | Keynote Talk

- Licensing, strategic alliances, and investment trends
- Multi-company success stories and collaborations
- Role of corporate development in pharma growth

10:30 – 11:00 | Coffee Break & Networking**11:00 – 11:40 | Session 1: Business Development, Corporate Strategy, Brand Marketing****Digital Health & Telemedicine in Pharma**

- Integrating digital tools into patient care
- Remote monitoring and telehealth adoption
- Pharma's role in digital health ecosystems

11:40 – 12:20 | Session 2: Public Health, Patient Advocacy & Regulatory Collaboration

- Collaboration with government and NGOs
- Patient engagement, access, and affordability
- Policy and regulatory trends shaping public health

12:20 – 13:00 | Session 3: To be Decided**13:00 – 14:00 | Group Photos & Lunch Break****14:00–14:30 | Keynote Talk**

14:30 – 15:10 | Session 4: Precision Medicine & Personalized Medicine in Health Practice

Personalized Medicine & Precision Health

- Integrating genomics, diagnostics, and patient data
- Early adoption success stories
- Overcoming implementation challenges in healthcare systems

15:10 15:30 | Special Session

15:30 – 16:00 | Coffee & Networking

16:00–16:20 | Keynote Talk

- ESG-focused operations and sustainable manufacturing
- Smart supply chain and logistics innovation
- AI-driven manufacturing and predictive analytics

16:20 16:50 | Keynote Talk

Corporate Development & Strategic Partnerships

- M&A trends and cross-border collaborations
- Licensing and business growth strategies
- Strategic alliances shaping the industry

16:50 17:30 | Session 5: Future of Pharma Manufacturing & Supply Chain 2030

Pharma Innovation 2030: The Road Ahead

- AI, digital health, and biopharma innovations
- Emerging technologies and long-term trends
- Strategic foresight for future pharma growth
